

ICSM 2018

JULY 1 - 6, 2018 / BUSAN, KOREA

Company Name	World-wide Innovative Technology Co., Ltd.	President / CEO	Jae Wan Choi
Address	89 Seoho-ro, Gwonsun-gu, Suwon, Gyeonggi, South Korea		
Telephone Number	031-293-9205	Fax Number	031-293-9206
E-mail	jwchoi@wwit.co.kr	Website	www.wwit.co.kr

Company Instruction

“You can always find solutions, if you find WIT!”

VPX-10 (Chamber Type) is high-degree vacuum or atmospheric gas changeable model. LN₂ circulated temperature variable stage is 77K~500K.

APX-10 (Ambient Type) is entry-level tabletop placed and rapid warmup stage model. WIT also provides low frequency noise system of AdMOS and IR thermal micro-imaging system of QFI. Low frequency noise system is for low-level noise measurement, automatic detection in transistor, interface analysis in devices and materials defect study. IR thermal micro-imaging system is for temperature mapping microscope, high-speed temperature trace option and packaging, reliability, RF, MEMEs.

Combining skills! Finding solutions! Attaining goals!

Whatever you want, WIT supports the technology to realize your own measurement system.
